

Lurgi Zimmer® Technology for Polyamide Plant in USA

No. 5 · Frankfurt am Main · 18 July 2007: Lurgi Zimmer GmbH, Frankfurt am Main, a company of Lurgi AG, received an order to implement their technology in a polyamide plant in USA. Although Zimmer® technologies have been used in several US plants this contract represents the first direct project for Lurgi Zimmer with this highly respected North American producer. The name of the customer is undisclosed.

For the expansion of the manufacturing unit Lurgi Zimmer was chosen as engineering partner due to their experience and technological know how in the polyamide field. Lurgi Zimmer will provide engineering and process equipment which will increase the PA 6 chips capacity for fibers.

This project underlines Lurgi Zimmer's technical competence and commitment to the polyamide market.

Lurgi is a leading technology company operating worldwide in the fields of process engineering and plant contracting. The strength of Lurgi lies in innovative technologies of the future focusing on customized solutions for growth markets. The technological leadership is based on proprietary technologies and exclusively licensed technologies in the areas gas-to-petrochemical products via synthesis gas or methanol and synthetic fuels, petrochemicals as well as renewable resources/food.
